And a life.**

Superintendent of Water Operations

**Annual Salary
\$74,600—\$ 102, 600**

**Position open until filled
First application review
October 25, 2006**

The Carlsbad Community

Known as the Village by the Sea, the City of Carlsbad, California is a unique and growing community of 42 square miles in size. Carlsbad is located 30 miles to the north of San Diego and 70 miles to the south of Los Angeles. Despite recent growth, Carlsbad has successfully retained its friendly, small-town charm, thanks in large part to a progressive city plan for managing growth. Balancing economic prosperity with preservation of the environment has been a top priority of city leaders for nearly 20 years. Carlsbad is also recognized for its progressive and stable city government. The City's current population is expected to grow from 97,000 to 127,800 at build out.

The Organization

Carlsbad is a city committed to continued financial stability, top quality services for its citizens as well as habitat, environmental and clean water programs. The City is a full service municipality which provides it's own safety services, parks and recreation, library, community development, public works and water and sewer services.

Over the next several years the organization will transition from high growth to a focus on maintaining a sustainable community, and there are a number of high-profile projects currently underway that will have a dramatic impact on our city. These projects include the construction of major city facilities, parks, community centers, and a municipal golf course, as well as involvement in the development of the west coast's largest seawater desalination plant. Current initiatives in the department include updating telemetry equipment, expanding recycled water programs and considering automated meter reading systems.

Ideal Candidate

The ideal candidate will plan, organize, supervise and review programs and crews engaged in the operation and maintenance of storage and regulating facilities of potable and recycled water systems, water quality assurance and cross connection control programs. He/She will possess exceptional interpersonal and management skills in addition to technical competency within water distribution systems operations, preventive maintenance and quality assurance scheduling, sampling and testing activities. In addition, the ideal candidate will be knowledgeable of all applicable federal, state, and local codes and regulations related to potable and recycled water treatment, distribution, cross connection control, risk management programs and safe work practices and methods.

Application Procedure

Applications may be obtained from and submitted to:

City of Carlsbad
Human Resources
1635 Faraday Avenue,
Carlsbad, CA 92008

Phone (760) 602-2440
